### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: in page 1, line 10, after "2002," -- now U.S. Patent No. 6,702,748 -- has been inserted.

#### *Allowable Subject Matter*

2. Claims 1-20 are allowed.
3. The following is an examiner's statement of reasons for allowance: in regard to claims 1, 12, and 13, none of the prior art, alone or in combination teaches or suggests the recitations therein including a nesting piece that is movable from a first position where the sonic connector is received inside the nesting piece to a second position where the sonic connector is separated from the nesting piece when ultrasound energy is being propagated through the ultrasound transmission member. The closest reference to Nita et al. (US 6,702,748 B1) teaches an ultrasound connector assembly but fails to teach the nesting piece as described above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3737

*Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure (please see attached "Notice of References Cited").
